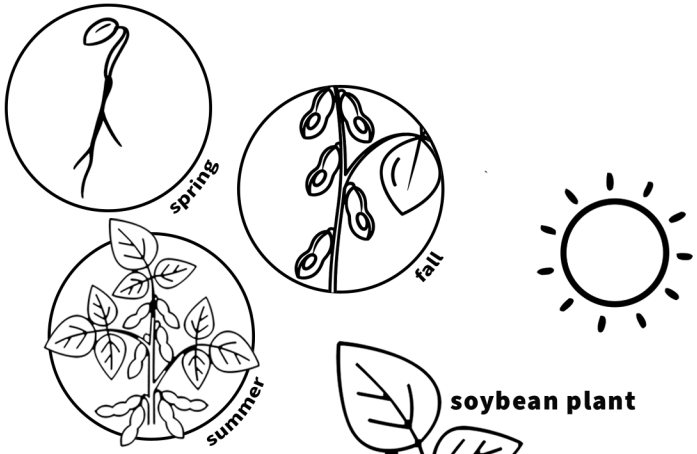
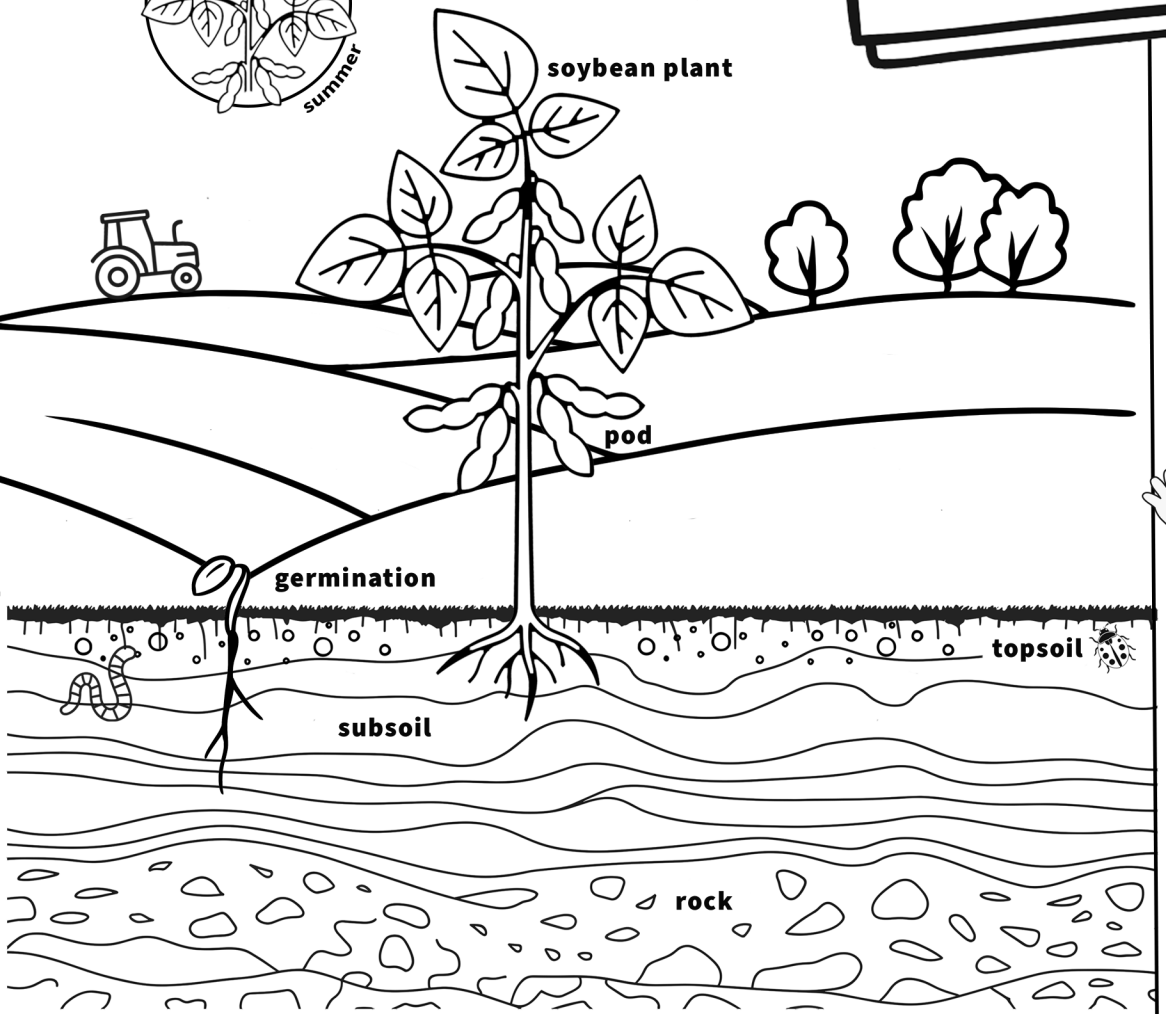
Soil to Super Bean:

The Miracle Bean





Soy Cool

- **Soybeans** are Missouri's **#1 cash crop!**
- Missouri **soybean** farmers are stewards of the land -- caring for water, and natural resources, when growing soybeans.
- Missouri **soybeans** are made into animal feed, fuel, and food, and shipped around the world!

Directions:
Connect the photo to its description.

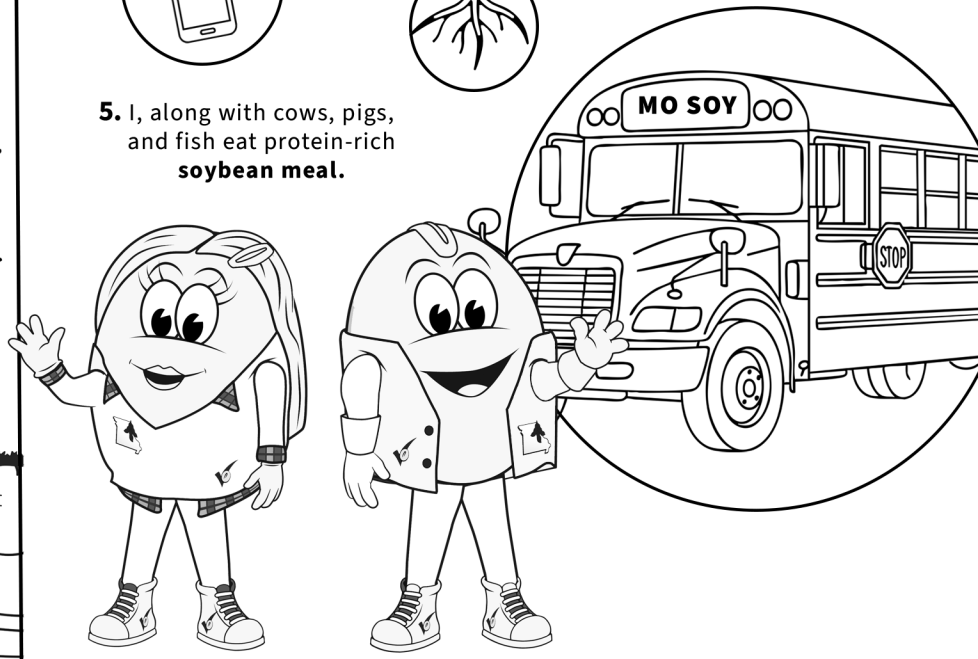
1. Soybean farmers use technology to do more with less.

2. I am like an anchor, and move water and nutrients to the plant.

3. I am **powered by biodiesel** (a renewable fuel) -- and get students where they need to go!

4. Soybeans give me and other living things in the soil nutrients and food.

5. I, along with cows, pigs, and fish eat protein-rich **soybean meal.**



Vocabulary

soybean: a type of legume that grows in pods on a plant, and used in products around the world!

stewardship: Taking good care of something that you are responsible for, so it stays healthy for the future.

What is something you learned you did not know?
